DECKWITH'S ANTI-DYSPEPTIC PILLS have been most successfully employed in almost every variety of functional disorder of the stomach, bowels, liver, and spleen; such as heartburn, acid cructations, nausea, headache, pain and distension of the stomach and bowels, incipient distribus, colic, jaundice, fiatulency, habitual costiveness, loss of appetite, sick headache, sea-sickness, &c., &c. They are a safe and comfortable aperient for females during pregnancy and subsequent confidement; relieving sickness at the atomach, headache, heartburn and many of the incidental nervous affections. Literary men, atudents, and most other persons of sedentary habits, find them very convenient. Those who induge too freely in the pleasures of the table find speedy relief from the sense of oppression and distension which follow, by taking the pills. As a dinner pill, they are invaluable. Those who are drinking mineral waters, and particularly those from southern climates, ague and fever districts, will find them a valuable adjunct. Those who are exposed to the vicinstitudes of weather on voyages or journeys, can take them at all times with perfect asfety. In full doses they are a highly efficacious and safe antibilious medicine. They seldom or never produce sickness at the stomach or griping.

CAUTION to those who purchase or take BECK-WITH'S anti-dyspeptic pills.

I have satisfactory evidence that Beckwith's pills have been extensively counterfeited in various parts of the country, and particularly at New York, and sold at prices much below what the genuine article can be afforded at.

Since the agency of Mr. Henry D. Turner, John street, New York, ceased, on the 14th February, 1844, I have appointed no agents, and now have nose in any section, except Dr. T. W. It will be seen by Dr. John Beckwith's letter, dated June 1st, 1845, that he has discontinued all agencies on commission for the sale of his (Beckwith's) anti-dyspeptic pills, and has established one principal office, which is at the Columbian College, No. 132 North Second street, Philadelphia, where the public are recommended to apply for the gentine nills. nine pills.

Protection against counterfeits.

Dr. Beckwith, proprietor of "Beckwith's antidyspeptic pills," having suffered great loss, as well as those who have been in the practice of using his pills being disappointed and their health injured:

It will be seen by Dr. Beckwith's letter of June 1, 1845, that he has adopted the only safe plan for himself and the public against these miscreants, by having placed the sale of his medicine in the hands of one special agent, where every one who wishes to be supplied with the genuine article must apply.

Dr. T. W. Dyott & Sons, of the Columbian College, No. 132 North Second street, Philadelphia, are the only persons appointed to supply the above pills in quantity, as no counterfeit article is permitted in their establishment. Dealers and the public will be safe in supplying themselves as above.
